

Job Title: Software Developer

Responsibilities:

- Write clean, efficient, and maintainable code.
- Collaborate with team members to design and implement software solutions.
- Debug, test, and optimize applications for performance and reliability.
- Participate in code reviews and follow best practices.

Requirements:

- Proficiency in at least one programming language (e.g., Java, Python, C#).
- Understanding of software development principles and methodologies.
- Problem-solving and analytical skills.
- Ability to work in a team environment.

Preferred:

- Experience with databases, APIs, or web frameworks.
- Familiarity with version control tools (e.g., Git).
